

Ignition Interlock Device

If you have been convicted of an OWI with a PAC of .15% or greater or OWI/refusal the court **MUST** order: (1) an ignition interlock device (IID) installed on every vehicle that is titled or registered in your name; and (2) a restriction of your operating privileges to only vehicles equipped with an IID.

The IID restriction period is one (1) year. The Clerk of Court will notify the Department of Motor Vehicles (DMV) of all court orders requiring IID installation.

No occupational license or reinstated regular license will be issued unless you provide the DMV with proof that the IID has been installed on every vehicle that is titled or registered in your name. The occupational license or reinstated regular license will have Class D operating privileges restricted to vehicles equipped with an IID.

An ignition interlock device (IID) or breath alcohol ignition interlock device (BIID) is a mechanism, like a breathalyzer, installed to a motor vehicle's dashboard and before the vehicle can be started, the driver first must exhale into the device. If the breath alcohol concentration analyzed result is greater than the programmed blood alcohol concentration (.02%), the device prevents the engine from being started.

Pursuant to State law, the Chemical Test Section of the Wisconsin Division of State Patrol is responsible for evaluating IIDs and approving manufactures and their devices for use in the State. There is a list of approved vendors on DOT's website at <http://www.dot.wisconsin.gov/statepatrol/services/chemtest.htm>. Please check their website for possible updates. Below is a list of currently approved IID manufacturers.

Approved Device Manufacturer	Approved Model & Type	Service Centers*	Phone
Consumer Safety Technology, Inc	Intoxalock Model 1001A	Various	877-777-5020
Draeger Safety Diagnostics, Inc	Interlock XT	Various	800-597-5054
Lifesaver Interlock	FC-100	Various	800-584-1226
Smart Start, Inc.	SSI 2020	Various	800-880-3394

Please call the vendors for current installation and maintenance prices. If you have any questions regarding the IID device, manufacturers or vendors please call the Chemical Test Section at 608-266-0084. If you have questions concerning IID forms or drivers' records maintenance please call the DMV Compliance and Restoration Unit at 608-266-2261.

All installed ignition interlock devices will be scheduled for service at intervals not to exceed 60 days. Any failure to report for required servicing shall be reported to the sheriff of the county where the customer resides. Each time the device is serviced, the service provider shall review the data recorded in the device's memory and retain a copy of the data in the customer's file. Any tampering, circumvention, bypass or violation resets shall be immediately reported to the sheriff in the county where the customer resides.

Failure to install, removal, disconnection, tampering with, or circumvention of the IID is a criminal offense and may result in a fine and/or up to six (6) months in jail, plus a mandatory six (6) month extension of the IID order period.
